## Profile

Hardworking and enthusiastic College Student In Iran University of Science and Technology (IUST). Seeking to use my superior knowledge of game developing and my advanced Communication Skills to effectively serve your company in an internship position.

## Work Experience

### Innovation and Game making Center of IUST

unity developer

June 2023 - Current

## Projects

### Todo Manager App

C#, database, OpenAI

App for planning

Github

- The Todo Manager is a application built using c#, SignalR, database, OpenAi. It allows users to create, read, update, and delete their tasks or to-dos. The application has a login system that ensures only authenticated users can access their to-dos.
- This project is part of the "Advanced Programming" course by Dr.Sauleh Etemadi on IUST.
